OPTIMIZATION OF THE FOURTH  
INDUSTRIAL REVOLUTION.

**DATE:** Summer 2019

**LOCATION:** Germany

**EXPECTED ATENDEES:** 100 / 120 Website: URL

**CONTACT:** [angelo@kreativdistrikt.com](mailto:angelo@kreativdistrikt.com)

## **ABOUT THE HACKATHON:**

In the summer of 2019, we will be hosting the “Industrial Revolution” Hackathon in Germany. Our goal is to bring approximately 100 participants who will work in teams to create “applications for decentralized automation ” in just 36 hours. In this Hackathon we are going to work closely with companies such as yours, active in Industrial IoT applications and interested in attracting developers and other professionals with the goal of developing solutions in order to create better industries for a better future.

## **OUR MISSION:**

We at KDKT connect the dots between developers and technology, dedicating every minute of our lives to what we do, loving and breathing Hackathons. We are following closely all new technology applications while we are creating an environment of innovation and ideation.

Our Hackathons are hubs of teams consisting of developers, designers and marketers to address innovations related to new technological trends in Industry 4.0. As an additional service we can provide guidance on the framework for the generation of ideas, incubation and development of your MVP. We want to showcase how technology can be invented just by bringing the right people together to brainstorm in the perfect environment. The KDKT team, with hundreds of events under our belts, will ensure that this event will be one to remember.

## RECRUITING

Distribute recruiting material	*	*	*
Access to Resumes		Post- event	Pre- event
Send Recruiters		*	*
Interview booth			*

## EXTRAS

## PRICE (€)

Afterparty	800
Cocktail hour	4000
Mini-Challenge	1000

## Why Sponsor?

This hackathon is an opportunity to exhibit awesome technologies and ideas that could be implemented to aid companies on their operations. Becoming a Sponsor will allow you to showcase your technology and help build brand awareness all while you evangelized the audience. In addition, this is will be an excellent opportunity to scout for talent as you see them work on a real project in a team setup.
